

Preparing the Future of Cybersecurity Leadership.

CYBERSECURITY LEADERSHIP

CYBER LEADER INSTITUTE | 2024

The training to provide the essential cybersecurity knowledge to align business strategy with security goals.

Our Value Proposition

At **Cyber Leader Institute**, we understand that in today's complex and ever-evolving digital landscape, effective cybersecurity management is critical to safeguarding your organisation's assets, reputation, and future success.

However, a concerning and widely recognized issue looms over the cybersecurity landscape: the **acute shortage of cybersecurity resources**.

We propose an **upskilling and reskilling program** that helps individuals transition into cybersecurity careers and work towards alleviating the shortage of cybersecurity managers.

Our tailored cybersecurity training is designed to **empower your managers** with the knowledge and skills they need to excel in this dynamic field.

||| A few data about the cyber Landscape

3.12 millions

Global shortage of skilled cybersecurity professionals in 2021, according to the ISC2 Cybersecurity Workforce Study.

65%

Of the companies surveyed in the ISC2 Cybersecurity Workforce Study reported a shortage of cybersecurity professionals.

2025

According to Gartner, lack of talent and human failure will be responsible for more than half of all major cybersecurity incidents by 2025.

Together, we can create a more secure digital future.

1 Elevate Your Leadership

Our program is uniquely crafted to provide in-depth insights into the strategic and leadership aspects of cybersecurity. We help you become a confident and informed decision-maker in the realm of cybersecurity.

2 Expand Your Cyber Horizon

Throughout the program we will explore a broad range of cyber security concepts across the digital landscape to gain a well-rounded perspective on current world digital cybersecurity facets.

3 Professional Growth

By equipping individuals with extensive and impactful cybersecurity knowledge, we foster personal career advancement and enhance organizational success.
